

AYESHA ANURUDDHA

BUSINESS ANALYST

+94 71 632 5463 | ayeshaanuruddha.github.io | ayeshaanuruddha@gmail.com

PROFILE

Results-oriented Business Analyst with hands-on Agile experience in enterprise environments. Adept at driving the software development lifecycle by translating complex operational logic into actionable technical documentation, functional and non-functional requirements, and user stories. Combines a strong technical foundation in secure system architectures with expertise in UAT coordination, data validation, and stakeholder alignment to consistently deliver scalable software solutions.

PROFESSIONAL EXPERIENCE

Associate Business Analyst | OrangeHRM Software Ltd. Oct 2025 - Feb 2026

- Drafted software specifications and technical documentation for the Integrations Team.
- Supported system integrations by conducting database analysis and basic data validation.
- Assisted with requirements gathering to help align business workflows with technical delivery.

Intern - Business Analyst | Sysco LABS Sri Lanka Sep 2024 - Mar 2025

- Drove Agile story development, bug reporting, and deep-dive defect investigations for the SWMS Mobile Team to optimize warehouse workflows.
- Executed complex test environment data recreation to simulate high-volume operational scenarios, directly accelerating QA testing cycles.
- Drafted functional specifications and User Acceptance Testing (UAT) documentation to align mobile application behavior with backend performance requirements.

EDUCATION

Bachelor of Science Hons. in Computer Science 2020 - 2026

Specialization in Cyber Security - University Of Kelaniya
